

I am absolutely appaled at the thought that Sinclair Broadcasting could be allowed to do such a thing. How can they force stations - stations that are supposed to serve the "public interest" - to run a blatantly partisan attack against a Presidential candidate?

while, of course, Sinclair is legally obligated to serve the public interest, I am not writing to nitpick about technicalities. I am writing to demand that ETHICS and HONOR be maintained.

Sinclair is abusing their priviledge of using the public airwaves free of charge. This is what can happen when large companies control the airwaves - true democracy goes out the window.
